

PROSTHODONTICS

Clinic Floor

- Dentist volunteers should arrive by 6:15 am or 12:00 pm and be ready to work by 6:45 am or 12:30 pm for shift 1 and 2 respectively.
- Dentists will need to find a chair quickly. If you did not bring an assistant, please go to the area marked Dental Assistants to find someone to work with.
- A brief training/orientation for the first ½ hour of each shift will be provided by the Lead.
- Please assure all equipment in your area is wiped down between patients and at the end of your shift. Please leave the disinfecting wipe on chair to show that a wipe down has been completed after your shift.
- Assure patient form is complete. Use only **BLUE** ink, see Lead. **Please print neatly and legibly.**
- Assure all sharps and any bio-hazard material are deposited into bio hazard bags and containers. **Do not put other trash in bio hazard bags.**
- Assure all instruments are taken to Sterilization in a covered container. Please make sure no sharps are sent to Sterilization.
- Wear appropriate personal protection equipment either provided by NM MOM or your own equipment such as safety glasses, face masks, gloves and disposable gowns, where appropriate.
- If you bring your own equipment, clearly mark the instruments with your name and take it to the personal instruments dirty location in Sterilization.

Our goal is to make about 120 flippers.

Supplies

- General supplies will be placed on each table for 4 chairs to share. These supplies will be stocked throughout the event.
- A cardboard boat will be provided with the materials for each patient. These boats will be sitting in your department supply area.
- Other special items may be obtained in Central Supply or in your department supply area.

Instruments

- Instruments for each patient will be ready for pick up at Sterilization or Central Supply.

Process

- Once you have treated the patient, raise the **red** card prior to cleaning your station for the Patient Escort to come and get your current patient. When you are ready for another patient,

please raise the green card. If you have questions or need assistance, please raise the yellow card.

- In the cleaning process, please use the patient material boat to place all dirty instruments for return to Sterilization, in a closed container.
- Please have the assistant take all dirty instruments to Sterilization after each patient. Place all sharps in red bins. Sterilization will also come by to collect dirty items every 30 to 45 minutes.

Prosthodontics – Dental Protocol

Services provided

- Only anterior resin interim removable partial dentures (“flippers”) will be provided.
- On a limited case selection and space available basis, simple denture repairs will be considered.
- Replacement and complete dentures will be provided as a service following the event. Services and follow-up will be free of charge. Patients will receive a voucher for dentures at the event. Transportation to receive denture services will be the responsibility of the patient.

Services not provided

- Relines, hard or soft.
- Posterior teeth flippers.
- Any fixed prosthesis work or repairs.

Dentists will bring their DEA number and prescription pads for writing prescriptions for medications not available at the clinic site. NM MOM will have generic prescription pads available.

PLEASE BE FLEXIBLE and THANK YOU for participating today.
